***Restricting Freedoms Who Counts? Crisis to Collapse Passing Strange Feudal America Neo-realism in Contemporary American Fiction Studyguide for Human Sexuality: Diversity in Contemporary America by William Yarber, ISBN 9780078035319***

***A Culture of Conspiracy Feb 18 2022 Unravelling the genealogies and permutations of conspiracist worldviews, this work shows how this web of urban legends has spread among sub-cultures on the Internet and through mass media, and how this phenomenon relates to larger changes in American culture.***

***Reconsidering Roots Mar 29 2020 These essays--from scholars in history, sociology, film, and media studies--interrogate Roots, assessing the ways that the book and its dramatization recast representations of slavery, labor, and the black family; reflected on the promise of freedom and civil rights; and engaged discourses of race, gender, violence, and power.***

***Who Counts? Jan 26 2020 One of Choice Magazine's Outstanding Academic Books of 2000 For those interested in understanding the historical and scientific context of the census adjustment controversy, Who Counts? is absolutely essential reading. —Science Ever since the founding fathers authorized a national headcount as the means of***

*apportioning seats in the federal legislature, the decennial census has been a political battleground. Political power, and more recently the allocation of federal resources, depend directly upon who is counted and who is left out. Who Counts? is the story of the lawsuits, congressional hearings, and bureaucratic intrigues surrounding the 1990 census. These controversies formed largely around a single vexing question: should the method of conducting the census be modified in order to rectify the demonstrated undercount of poor urban minorities? But they also stemmed from a more general debate about the methods required to count an ever more diverse and mobile population of over two hundred million. The responses to these questions repeatedly pitted the innovations of statisticians and demographers against objections that their attempts to alter traditional methods may be flawed and even unconstitutional. Who Counts? offers a detailed review of the preparation, implementation, and aftermath of the last three censuses. It recounts the growing criticisms of inaccuracy and undercounting, and the work to develop new enumeration strategies. The party shifts that followed national elections played an increasingly important role in the politicization of the census, as the Department of Commerce asserted growing authority over the scientific endeavors of the Census Bureau. At the same time, each decade*

***saw more city and state governments and private groups bringing suit to challenge census methodology and results. Who Counts? tracks the legal course that began in 1988, when a coalition led by New York City first sued to institute new statistical procedures in response to an alleged undercount of urban inhabitants. The challenge of accurately classifying an increasingly mixed population further threatens the legitimacy of the census, and Who Counts? investigates the difficulties of gaining unambiguous measurements of race and ethnicity, and the proposal that the race question be eliminated in favor of ethnic origin. Who Counts? concludes with a discussion of the proposed census design for 2000, as well as the implications of population counts on the composition and size of Congress. This volume reveals in extraordinary detail the interplay of law, politics, and science that propel the ongoing census debate, a debate whose outcome will have a tremendous impact on the distribution of political power and economic resources among the nation's communities. A Volume in the Russell Sage Foundation Census Series***

***Black Noise Oct 17 2021 From its beginnings in hip hop culture, the dense rhythms and aggressive lyrics of rap music have made it a provocative fixture on the American cultural landscape. In Black Noise: Rap Music and Black Culture in***

***Contemporary America, Tricia Rose, described by the New York Times as a "hip hop theorist," takes a comprehensive look at the lyrics, music, cultures, themes, and styles of this highly rhythmic, rhymed storytelling and grapples with the most salient issues and debates that surround it. Assistant Professor of Africana Studies and History at New York University, Tricia Rose sorts through rap's multiple voices by exploring its underlying urban cultural politics, particularly the influential New York City rap scene, and discusses rap as a unique musical form in which traditional African-based oral traditions fuse with cutting-edge music technologies. Next she takes up rap's racial politics, its sharp criticisms of the police and the government, and the responses of those institutions. Finally, she explores the complex sexual politics of rap, including questions of misogyny, sexual domination, and female rappers' critiques of men. But these debates do not overshadow rappers' own words and thoughts. Rose also closely examines the lyrics and videos for songs by artists such as Public Enemy, KRS-One, Salt N' Pepa, MC Lyte, and L. L. Cool J. and draws on candid interviews with Queen Latifah, music producer Eric "Vietnam" Sadler, dancer Crazy Legs, and others to paint the full range of rap's political and aesthetic spectrum. In the end, Rose observes, rap music remains a vibrant force with its own***

***aesthetic, "a noisy and powerful element of contemporary American popular culture which continues to draw a great deal of attention to itself."***

***Crisis to Collapse Dec 27 2019***

***Inheritance in Contemporary America Aug 15 2021  
Publisher Description***

***Gun Women Sep 03 2020 Women, we are told, should not own guns. Women, we are told, are more likely to be injured by their own guns than to fend off an attack themselves. This "fact" is rooted in a fundamental assumption of female weakness and vulnerability. Why should a woman not be every bit as capable as a man of using a firearm in self-defense? And yet the reality is that millions of American women--somewhere between 11,000,000 and 17,000,000--use guns confidently and competently every day. Women are hunting, using firearms in their work as policewomen and in the military, shooting for sport, and arming themselves for personal security in ever-increasing numbers. What motivates women to possess firearms? What is their relationship to their guns? And who exactly are these women? Crucially, can a woman be a gun-owner and a feminist too? Women's growing tendency to arm themselves has in recent years been political fodder for both the right and the left. Female gun owners are frequently painted as "trying to be like men" (the conservative***

*perspective) or "capitulating to patriarchal ideas about power" (the liberal critique). Eschewing the polar extremes in the heated debate over gun ownership and gun control, and linking firearms and feminism in novel fashion, Mary Zeiss Stange and Carol K. Oyster here cut through the rhetoric to paint a precise and unflinching account of America's gun women.*

*Green Culture May 31 2020 Green Culture is about an idea--the environment--and how we talk about it. Is the environment something simply "out there" in the world to be found? Or is it, as this book suggests, a concept and a set of cultural values constructed by our use of language? That language, in its many forms, comes under scrutiny here, as distinguished authors writing from a variety of perspectives consider how our idea and our discussion of the environment evolve together, and how this process results in action--or inaction. Listen to politicians, social scientists, naturalists, and economists talk about the environment, and a problem becomes clear: dramatic differences on environmental issues are embedded in dramatically different discourses. This book explores these differences and shows how an understanding of rhetoric might lead to their resolution. The authors examine specific environmental debates--over the Great Lakes and Yellowstone, a toxic waste dump in North Carolina and an episode in Red Lodge,*

**Montana. They look at how genres such as nature writing and specific works such as Rachel Carson's *Silent Spring* have influenced environmental discourse. And they investigate the impact of cultural traditions, from the landscape painting of the Hudson River School to the rhetoric of the John Birch Society, on our discussions and positions on the environment. Most of the scholars gathered here are also hikers, canoeists, climbers, or bird watchers, and their work reflects a deep, personal interest in the natural world in connection with the human community. Concerned throughout to make the methods of rhetorical analysis perfectly clear, they offer readers a rare chance to see what, precisely, we are talking about when we talk about the environment.**

***The Printed Book in Contemporary American Culture* Aug 27 2022 This essay collection explores the cultural functions the printed book performs in the digital age. It examines how the use of and attitude toward the book form have changed in light of the digital transformation of American media culture. Situated at the crossroads of American studies, literary studies, book studies, and media studies, these essays show that a sustained focus on the medial and material formats of literary communication significantly expands our**

*accustomed ways of doing cultural studies. Addressing the changing roles of authors, publishers, and readers while covering multiple bookish formats such as artists' books, bestselling novels, experimental fiction, and zines, this interdisciplinary volume introduces readers to current transatlantic conversations on the history and future of the printed book.*

*Human Sexuality: Diversity in Contemporary America Mar 10 2021 Human Sexuality: Diversity in Contemporary America presents a forward thinking, open approach to Human Sexuality for today's student. The new lead authors, Bill Yarber and Barbara Sayad, continue to bring their research experience to the book while maintaining the engaging writing style that original author Bryan Strong brought to this best-selling text for years. The first text to achieve a full integration of cutting-edge research with a contemporary "sex-positive" approach, it also strives to represent the modern, diverse world that students encounter outside the classroom. Both within the text itself and throughout the exemplary art and photo program, the focus is on inclusion. Human Sexuality has been lauded by students and instructors alike for providing the most integrated and non-judgmental view of sexual orientation available. The seventh edition maintains these themes while adding a new contemporary design, streamlined format and*

**Religion in Contemporary America May 12 2021**  
**This book provides a fresh, engaging multi-disciplinary introduction to religion in contemporary America. The chapters explore the roots of contemporary American religion from the 1950s up to the present day, looking at the major traditions including mainline Protestantism, the evangelical-pentecostal surge, Catholicism, Judaism, African-American religions and new religious movements. The authors ask whether Americans are becoming less religious, and how religious thought has moved from traditional systematic theology to approaches such as black and feminist theology and environmental theology. The book introduces religion and social theory, and explores key issues and themes such as: religion and social change; politics; gender; sexuality; diversity; race and poverty. Students and instructors will find the combination of historical and sociological perspectives an invaluable aid to understanding this fascinating but complex field.**

***Health Care Policy in Contemporary America Nov 17 2021 Americans have benefited from substantial improvements in health since the end of World War II. They live longer and grow taller; they have the safest and cheapest food supply on the planet; they have seen virtually all childhood diseases brought under control. Yet concerns about health remain***

**widespread today. Cancer seems to be everywhere; autoimmune, nervous, and environmental diseases have reached pandemic proportions; medical malpractice suits have proliferated. How can we have received so many benefits while still being as worried as ever about our health and the health care system established to ensure and extend those benefits? The historical perspective provided by the essays in this volume helps answer this question by identifying two points of significant change in health care policy. Beginning in the 1950s there emerged a subtle yet critical reconceptualization as the individual rather than the group came to figure prominently as the central policy-making unit. Then in the late 1960s a palpable sense of limits rendered the individualism of the previous decade into a Malthusian formulation: the greater the access or benefits that any one person received, the less others could get. Besides tracing these patterns in health care development, the essays also show how traditional notions of expertise have been affected by the changes. Contributors are Amy Sue Bix, Hamilton Cravens, Gerald N. Grob, Alan I Marcus, Diane Paul, David Rosner and Gerald Markowitz, and James Harvey Young.**

**Trailing Clouds Dec 07 2020 "We stand to learn much about the durability of or changes in the American way of life from writers such as Bharati Mukherjee (born in India), Ursula Hegi (born in**

*Germany), Jerzy Kosinski (born in Poland), Jamaica Kincaid (born in Antigua), Cristina Garcia (born in Cuba), Edwidge Danticat (born in Haiti), Wendy Law-Yone (born in Burma), Mylne Dressler (born in the Netherlands), Lan Cao (born in Vietnam), and such Korean-born authors as Chang-rae Lee, Theresa Hak Kyung Cha, and Nora Okja Keller--writers who in recent years have come to this country and, in their work, contributed to its culture."--David Cowart*

*In Trailing Clouds, David Cowart offers fresh insights into contemporary American literature by exploring novels and short stories published since 1970 by immigrant writers. Balancing historical and social context with close readings of selected works, Cowart explores the major themes raised in immigrant writing: the acquisition of language, the dual identity of the immigrant, the place of the homeland, and the nature of citizenship. Cowart suggests that the attention to first-generation writers (those whose parents immigrated) has not prepared us to read the fresher stories of those more recent arrivals whose immigrant experience has been more direct and unmediated. Highlighting the nuanced reflection in immigrant fiction of a nation that is ever more diverse and multicultural, Cowart argues that readers can learn much about the changes in the American way of life from writers who have come to this country, embraced its culture, and penned substantial literary work in*

**Ethnicity in Contemporary America Jul 26 2022 Thoroughly revised and updated in this second edition, this clear and thoughtful text offers a geographical analysis of the history of U.S. immigration patterns and the development of selected ethnic minority groups. The book focuses especially on their origin, diffusion, socioeconomic characteristics, and settlement patterns within the United States. The book sets the context with opening chapters that discuss migration theory and**

***the history of U.S. migration from 1607 to the present, including major U.S. immigration legislation, and provide a background for the time of entry, volume, and spatial distribution of various groups. Case-study chapters then analyze each of those groups, including Native Americans and those of African, Puerto Rican, Mexican, Cuban, Jewish, Japanese, Chinese, and Indochinese origin. The final section of the book explores rural and urban ethnic enclaves, focusing especially on immigrant groups of European heritage and their impacts on the cultural landscape of the United States.***

***Feudal America Oct 24 2019 Do Americans live in a liberal capitalist society, where evenhanded competition rules the day, or a society in which big money, private security, and personal relations determine key social outcomes? Vladimir Shlapentokh and Joshua Woods argue that the answer to these questions cannot be found among the conventional models used to describe the nation. Offering a new analytical tool, the authors present a provocative explanation of the nature of contemporary society by comparing its essential characteristics to those of medieval European societies. Their feudal model emphasizes five elements: the weakness of the state and its inability to protect its territory, guarantee the security of its citizens, and enforce laws; conflicts and collusions between and within organizations that involve***

***corruption and other forms of illegal or semilegal actions; the dominance of personal relations in political and economic life; the prevalence of an elitist ideology; and the use of private agents and organizations for the provision of safety and security. Feudal America urges readers to suspend their forward-thinking and futurist orientations, question linear notions of social and historical progression, and look for explanations of contemporary social problems in medieval European history.***

***The Little Magazine in Contemporary America Jul 14 2021 Little magazines have often showcased the best new writing in America. Historically, these idiosyncratic, small-circulation outlets have served the dual functions of representing the avant-garde of literary expression while also helping many emerging writers become established authors. Although changing technology and the increasingly harsh financial realities of publishing over the past three decades would seem to have pushed little magazines to the brink of extinction, their story is far more complicated. In this collection, Ian Morris and Joanne Diaz gather the reflections of twenty-three prominent editors whose little magazines have flourished over the past thirty-five years. Highlighting the creativity and innovation driving this diverse and still vital medium, contributors offer insights into how their publications sometimes***

***succeeded, sometimes reluctantly folded, but mostly how they evolved and persevered. Other topics discussed include the role of little magazines in promoting the work and concerns of minority and women writers, the place of universities in supporting and shaping little magazines, and the online and offline future of these publications. **Opening Doors May 24 2022 On June 11, 1963, The University of Alabama provided the backdrop for what would become a lasting symbol in U.S. civil right history. With his stand in the schoolhouse door staged at Foster Auditorium on the University's campus, Governor George C. Wallace attempted to defy a federal mandate by blocking the admission of two black students to the University. The nature of racial prejudice and discrimination - its causes, its history, and is impact on society - was the focus of a 1988 national symposium hosted by The University of Alabama to mark the 25th anniversary of the stand in the schoolhouse door. On this occasion major participants in the Wallace**

***stand reconvened to reflect on the issues and circumstances surrounding that event. In addition, because of the original event's central place in civil rights history, and because of the many racial disturbances and difficulties occurring today, scholars from across the country were asked to contribute to an extensive examination of racial prejudice and discrimination. This book is based on the presentations commissioned for the symposium and is divided into three sections: Historical Context, Current Psychosocial-Cultural Assessments of Prejudice and Discrimination, and Strategies for Change. The contributors include Dan T. Carter, E. Culpepper Clark, John F. Dovidio, Samuel L. Gaertner, Rhoda E. Johnson, James Jones, Leon F. Litwack, Fannie Allen Neal, Mortimer Ostow, Thomas F. Pettigrew, and Walter G. Stephan. The editors have provided introductions to each of the three sections that place the chapters in both historical and contemporary contexts. Opening Doors describes the progress that has been made in this country in the relationships between and among the races since a sneering Governor Wallace withdrew from the University campus, telling bystanders to "come back and see us in Alabama." The volume also sheds new light on our understanding of prejudice and discrimination and serves to broaden our current perspectives on the traditions, values, attitudes, and behavior patterns***

***that contribute to and reflect these negative components of race relations. At the same time, by recounting historical issues associated with prejudice, racism, and discrimination, by offering current analyses of these concepts, and by suggesting strategies for effecting appropriate and meaningful change, Opening Doors leads to a clear understanding of the nature and extent of progress yet to be realized before we are able to engage in harmonious race relations and enjoy the benefits of a more just society.***
