Winner of the International Literacy Association Social Justice Literature Award An award-winning middle-grade novel about the power of grassroots activism and how kids can make a difference. Every day, nine-year-old Yasmin borrows a book from Book Uncle, a retired teacher who has set up a free lending library on the street corner. But when the mayor tries to shut down the rickety bookstand, Yasmin has to take her nose out of her book and do something. What can she do? The local elections are coming up, but she's just a kid. She can't even vote! Still, Yasmin has friends — her best friend, Reeni, and Anil, who even has a blue belt in karate. And she has family and neighbors. What's more, she has an idea that came right out of the last book she borrowed from Book Uncle. So Yasmin and her friends get to work. Ideas grow like cracks in the sidewalk, and soon the whole effort is breezing along nicely... Or is it spinning right out of control? An energetic, funny and quirky story about community activism, friendship, and the love of books. Social Studies Based Levelled Readers For Use In Guided Reading And Social Studies Instruction. The value of small group instruction cannot be emphasized enough, but many teachers have found it difficult to manage, especially if class sizes remain large. Here is practical, theoretically-sound guidance for language arts teachers from pre-K through grade 5 who want help setting up literacy-rich classrooms that support guided reading or other small-group teaching. This new edition of *The Literacy Center* provides meaningful activities that extend small-group instruction in both comprehension and word study. Like the popular first edition, this updated handbook is teacher friendly. Clear suggestions for each center, together with charts, diagrams, black-line masters and photographs, help implement a "real" work place for young learners. Supported by Dr. Morrow's extensive research in motivation theory and exemplary instruction, here are sound ideas that engage students collaboratively and independently. You can spend time teaching small groups of students, attending to their individual needs, all the while knowing that your class will be independently engaged in real learning. The book is divided into two distinct parts. The first section gives the research background and rationale for using literacy centers. It provides the tools for thoughtful design and use of centers along with helpful hints on how best to motivate students. The second section provides activities for modeling literature to interest children in reading in social collaborative settings. These activities are designed to foster the development of comprehension skills and strategies through the use of children's literature. The book also gives equal time to the development of word study skills, such as phonemic awareness and phonics, with manipulative materials to ensure fluent reading. Included are: smart suggestions for introducing centers; management ideas; black-line masters; ways to foster student collaboration and cooperation; ways to assess students' center work and suggestions for promoting student accountability; a completely new section on word study, phonics and phonemic awareness; practical and effective suggestions for family involvement. *The Literacy Center* can help you develop students' enthusiasm for reading and writing. It is perfect for introducing pre-service teachers to classrooms that are literacy-rich and purposeful, as well as for continuing staff development for classroom teachers who are seeking new ways to engage students in reading and writing.

In another unrelenting look at the iniquities of the American justice system, Lawrence Goldstone, acclaimed author of *Unpunished Murder*, *Stolen Justice*, and *Separate No More*, examines the history of racism against Japanese Americans, exploring the territory of citizenship and touching on the fears of non-white immigration to the US -- with hauntingly contemporary echoes. On December 7, 1941 -- "a date which will live in infamy" -- the Japanese navy launched an attack on the American military bases at Pearl Harbor in Hawaii. The next day, President Franklin Roosevelt declared war on Japan, and the US Army officially entered the Second World War. Three years later, on December 18, 1944, President Roosevelt signed Executive Order 9066, which enabled the Secretary of War to enforce a mass deportation of more than 100,000 Americans to what government officials themselves called "concentration camps." None of these citizens had been accused of a real crime. All of them were torn from their homes, jobs, schools, and communities, and deposited in tawdry, makeshift housing behind barbed wire, solely for the crime of being of Japanese descent. President Roosevelt declared this community "alien," -- whether they were citizens or not, native-born or not -- accusing them of being potential spies and saboteurs for Japan who deserved to have their Constitutional rights stripped away. In doing so, the president set in motion another date which would live in infamy, the day when the US joined the ranks of those Fascist nations that had forcibly deported innocents solely on the basis of the circumstance of their birth. In 1944 the US Supreme Court ruled, in *Korematsu v. United States*, that the forcible deportation and detention of Japanese Americans on the basis of race was a "military necessity." Today it is widely considered one of the worst Supreme Court decisions of all time. But *Korematsu* was not an isolated event. In fact, the Court's racist ruling was the result of a deep-seated anti-Japanese, anti-Asian sentiment running all the way back to the California Gold Rush of the mid-1800s. Starting from this pivotal moment, Constitutional law scholar Lawrence Goldstone will take young readers through the key events of the 19th and 20th centuries leading up to the fundamental injustice of Japanese American internment. Tracing the history of Japanese immigration to America and the growing fear whites had of losing power, Goldstone will raise deeply resonant questions of what makes an American an American, and what it means for the Supreme Court to stand as the "people's" branch of government.

*Declaration of Statesmanship* is a one-of-a-kind American Government high school course. It unites history, philosophy, and civics in a dynamic blend of narrative and argument. The authors of the course continually endeavor to match the thoughtfulness and elegance of the multiplicity of original sources and fundamental texts found in this course which were pivotal in the founding of our nation. The course has three primary parts. In the first, the text explores the ideals and principles of this nation as expressed in *The Declaration of Independence*. It examines the philosophy and religious teaching that influenced the founders in their decision to write the Declaration and leave Great Britain. Then the text considers the Declaration in detail and shows how *The Articles of Confederation* and *The Constitution* establish a government which fulfills the Declaration's ideals. The second part of the course investigates how some of our greatest statesmen were guided by these same ideals when dealing with the difficult questions of slavery and civil rights. From even before the four

there was a conflict between the ideas of liberty and the existence of slavery. This part of the course reviews how the founding generation addressed the problem of slavery present in the new nation and how future generations have lived out those same ideals in their struggles. America needs great statesmen, but it has an even greater need, a need of men capable of living as free men. In the third part, the course uses Alexis de Tocqueville's *Democracy in America* to analyze the peculiarities of America which allowed this experiment in democracy to be so successful, and what was needed to maintain the freedom and self-rule which we have inherited. *Declaration of Statesmanship* has been redesigned as a one semester course in American Government for high school students. The program is made up of different components which give students everything they need. Reading Book: The Reading Book contains the best of the original writings and documents which accompany the course. This course is the perfect tool to inform future generations of their rights, duties and responsibilities as American citizens living in the civic state that is the American Government. International tests show that large numbers of South African learners cannot understand what they are reading. The government implemented Guided Reading in the primary schools to address this problem. Alide Kruizinga evaluates how teachers understand and implement Guided Reading in three South African primary schools. She suggests teachers struggle to implement Guided Reading, because they do not have access to appropriate books and policy guidelines are unclear. Kruizinga argues that without addressing these basic requirements, it is unlikely that Guided Reading will be implemented with any success in South African classrooms. "A concise and accessible Coursebook presenting the essential content and skills for the latest AP U.S. Government and Politics course." Includes free-response and multiple-choice practice questions that parallel questions that appear on the national exam. Dive deep into the vivid underwater world of *Dark Life*! The oceans rose, swallowing the lowlands. Earthquakes shattered the continents, toppling entire regions into the rising water. Now, humans live packed into stack cities. The only ones with any space of their own are those who live on the ocean floor: the Dark Life. Ty spent his whole life living deep undersea. When outlaws attack his homestead, he finds himself in a fight to save his only home he has ever known. Joined by Gemma, a girl from Topside, Ty ventures into the frontier's rough underworld and discovers some dark secrets to Dark Life. Secrets that threaten to destroy everything. child, Alexander Hamilton made his way to the American Colonies and studied to become a lawyer. He joined a militia during the American Revolution, rose to the rank of Major General, and became the chief aide to General George Washington. After the war, he became the first U.S. Secretary of the Treasury. He founded the Bank of New York and The New York Post newspaper. He served as a delegate to the Constitutional Convention and is also celebrated as a co-author of The Federalist Papers, a series of essays that are still used today to interpret the Constitution. The end of his life became a national scandal when he was shot and killed in a duel with then-Vice President Aaron Burr. Much has been written on the topic of guided reading over the last twenty years, but no leaders in literacy education have championed the topic with such depth and breadth as Irene Fountas and Gay Pinnell.
