**The Palgrave Handbook of Positive
Education** Jun 12 2021 "The approaches
outlined in this volume will help expand the

narrow focus on academic success to include
psychological well-being for students and
educators alike. It is a must-read for anyone
interested in how positive outcomes such as life
satisfaction, positive emotion, and meaning and
purpose can be optimized in the educational
settings." -- Judith Moskowitz, PhD MPH,
Northwestern University Feinberg School of
Medicine, USA, IPPA President 2019-2021 This
open access handbook provides a comprehensive
overview of the growing field of positive
education, featuring a broad range of
theoretical, applied, and practice-focused
chapters from leading international experts. It
demonstrates how positive education offers an
approach to understanding learning that blends
academic study with life skills such as self-
awareness, emotion regulation, healthy
mindsets, mindfulness, and positive habits,
grounded in the science of wellbeing, to promote
character development, optimal functioning,
engagement in learning, and resilience. The

handbook offers an in-depth understanding and critical consideration of the relevance of positive psychology to education, which encompasses its theoretical foundations, the empirical findings, and the existing educational applications and interventions. The contributors situate wellbeing science within the broader framework of education, considering its implications for teacher training, education and developmental psychology, school administration, policy making, pedagogy, and curriculum studies. This landmark collection will appeal to researchers and practitioners working in positive psychology, educational and school psychology, developmental psychology, education, counselling, social work, and public policy. Margaret (Peggy) L. Kern is Associate Professor at the Centre for Positive Psychology at the University of Melbourne's Graduate School of Education, Australia. Dr Kern is Founding Chair of the Education Division of the International Positive Psychology Association (IPPA). You can

find out more about Dr Kern's work at www.peggykern.org. Michael L. Wehmeyer is Ross and Mariana Beach Distinguished Professor of Special Education; Chair of the Department of Special Education; and Director and Senior Scientist, Beach Center on Disability, at the University of Kansas, United States. Dr Wehmeyer is Publications Lead for the Education Division of the International Positive Psychology Association (IPPA). He has published more than 450 peer-reviewed journal articles and book chapters and is an author or editor of 42 texts. .

How the Word Is Passed Jan 20 2022 This compelling “important and timely” (Drew Faust, Harvard Magazine) #1 New York Times bestseller examines the legacy of slavery in America—and how both history and memory continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are

honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden

in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be. Winner of the National Book Critics Circle Award for Nonfiction Winner of the Stowe Prize Winner of 2022 Hillman Prize for Book Journalism A New York Times 10 Best Books of 2021

More Than Peach (Bellen Woodard Original Picture Book) Nov 05 2020 Penned by the very first Crayon Activist, Bellen Woodard, this picture book will tug at readers' heartstrings and inspire them to make a difference! When

Bellen Woodard's classmates referred to "the skin-color" crayon, in a school and classroom she had always loved, she knew just how important it was that everyone understood that "skin can be any number of beautiful colors." This stunning picture book spreads Bellen's message of inclusivity, empowerment, and the importance of inspiring the next generation of leaders. Bellen created the More Than Peach Project and crayons with every single kid in mind to transform the crayon industry and grow the way we see our world. And Bellen has done just that! This moving book includes back matter about becoming a leader and improving your community just like Bellen. Her wisdom and self-confidence are sure to encourage any young reader looking to use their voice to make even great spaces better!

Gestalt Awareness Practice: Christine Stewart Price Feb 06 2021 This text is a comprehensive introduction to Gestalt Awareness Practice.

Facing the Mountain Sep 03 2020 A NEW YORK TIMES BESTSELLER One of NPR's "Books We Love" of 2021 Longlisted for the PEN/Jacqueline Bograd Weld Award for Biography Winner of the Christopher Award "Masterly. An epic story of four Japanese-American families and their sons who volunteered for military service and displayed uncommon heroism... Propulsive and gripping, in part because of Mr. Brown's ability to make us care deeply about the fates of these individual soldiers...a page-turner." - Wall Street Journal From the #1 New York Times bestselling author of *The Boys in the Boat*, a gripping World War II saga of patriotism and resistance, focusing on four Japanese American men and their families, and the contributions and sacrifices that they made for the sake of the nation. In the days and months after Pearl Harbor, the lives of Japanese Americans across the continent and Hawaii were changed forever. In this unforgettable chronicle of war-time America and the battlefields of

Europe, Daniel James Brown portrays the journey of Rudy Tokiwa, Fred Shiosaki, and Kats Miho, who volunteered for the 442nd Regimental Combat Team and were deployed to France, Germany, and Italy, where they were asked to do the near impossible. Brown also tells the story of these soldiers' parents, immigrants who were forced to submit to life in concentration camps on U.S. soil. Woven throughout is the chronicle of Gordon Hirabayashi, one of a cadre of patriotic resisters who stood up against their government in defense of their own rights. Whether fighting on battlefields or in courtrooms, these were Americans under unprecedented strain, doing what Americans do best—striving, resisting, pushing back, rising up, standing on principle, laying down their lives, and enduring.

[Encyclopedia of Creativity](#) May 31 2020

Creativity influences each of our lives and is

essential for the advancement of society. The first edition of the successful *Encyclopedia of Creativity* helped establish the study of creativity as a field of research in itself. The second edition, published in 2011, was named a 2012 Outstanding Academic Title by the American Library Association's Choice publication. Featuring 232 chapters, across 2 volumes, the third edition of this important work provides updated information on the full range of creativity research. There has been an enormous increase in research on the topic throughout the world in many different disciplines. Some areas covered in this edition include the arts and humanities, business, education, mental and physical health, neuroscience, psychology, the creative process and technology. Fundamental subjects are discussed such as the definition of creativity, the development and expression of creativity across the lifespan, the environmental conditions that encourage or discourage creativity, the relationship of creativity to mental

health, intelligence and learning styles, and the process of being creative. Creativity is discussed within specific disciplines including acting, architecture, art, dance, film, government, interior design, magic, mathematics, medicine, photography, science, sports, tourism and writing. A wide range of topics are covered. Here is a partial overview by topic: Business and organizational creativity: Advertising, Creative Economies, Creativity Consulting and Coaching, Corporate Creativity, Creativity Exercises, Entrepreneurship, Group Dynamics, Innovation, Leadership, Management of Creative People, Patents, Teams, and Training. The Cognitive Aspects of Creativity: Altered and Transitional States, Analogies, Attention, Breadth of Attention, Cognitive Style, Divergent Thinking, Flow and Optimal Experience, Knowledge, Logic and Reasoning, Metacognition, Mental Models, Memory, Metaphors, Mind Wandering, Mindfulness, Problem-Finding, Problem-Solving, and Remote Associates. The Creative Process:

Attribution, Constraints, Discovery, Insight, Inspiration, Intentionality, Motivation, Risk-Taking, and Tolerance for Ambiguity. Education: Children's Creativity, , Education, Intelligence, Knowledge, Metacognition, Play, Prodigies, Programs And Courses, Talent And Teaching Creativity. Neuroscience Research: Cellular Matter, Grey Matter, Cellular Density; EEG, Functional Magnetic Resonance Imaging (Fmri), Music and The Brain, Pupillometry, Systems, The Cerebellum and Transcranial Electrical Stimulation. Psychology: The Big 5 Personality Characteristics, Bipolar Mood Disorders, Childhood Trauma, Depression, Deviance, Dreams, Emotions, Expressive Arts, Grit, Introversion, Jungian Theory, Mad Genius Controversy, Openness, Schizotypy, Suicide, Therapy and Counseling Trauma and Transcendence and Transforming Illness and Visual Art. Social Aspects of Creativity: Awards, Birth Order, Criticism, Consensual Assessment, Diversity, Eminence, Families, Friendships and

Social Networks, Geeks, Mentors, Millennials, Networking, Rewards, And Sociology. Society and Creativity: Awards, Climate For Creativity, Cross-Cultural Creativity, Destruction Of Creativity, Law And Society, Social Psychology, Social Transformation, Voting, War, and Zeitgeist. Technology: Chats, Computational Creativity, Computerized Text Analysis, Gaming, Memes, Networks and Maps, and Virtual Reality.

Department of the Interior and Related Agencies Appropriations for 2003 Dec 19 2021

The 1619 Project Aug 22 2019 #1 NEW YORK TIMES BESTSELLER • NAACP IMAGE AWARD WINNER • A dramatic expansion of a groundbreaking work of journalism, *The 1619 Project: A New Origin Story* offers a profoundly revealing vision of the American past and present. FINALIST FOR THE KIRKUS PRIZE • ONE OF THE BEST BOOKS OF THE YEAR: *The Washington Post*, NPR, *Esquire*, *Marie Claire*,

Electric Lit, *Ms. magazine*, *Kirkus Reviews*, *Booklist* In late August 1619, a ship arrived in the British colony of Virginia bearing a cargo of twenty to thirty enslaved people from Africa. Their arrival led to the barbaric and unprecedented system of American chattel slavery that would last for the next 250 years. This is sometimes referred to as the country's original sin, but it is more than that: It is the source of so much that still defines the United States. The *New York Times Magazine's* award-winning "1619 Project" issue reframed our understanding of American history by placing slavery and its continuing legacy at the center of our national narrative. This new book substantially expands on that work, weaving together eighteen essays that explore the legacy of slavery in present-day America with thirty-six poems and works of fiction that illuminate key moments of oppression, struggle, and resistance. The essays show how the inheritance of 1619 reaches into every part of contemporary

American society, from politics, music, diet, traffic, and citizenship to capitalism, religion, and our democracy itself. This is a book that speaks directly to our current moment, contextualizing the systems of race and caste within which we operate today. It reveals long-glossed-over truths around our nation's founding and construction—and the way that the legacy of slavery did not end with emancipation, but continues to shape contemporary American life. Working Effectively with Legacy Code Sep 27 2022 Get more out of your legacy systems: more performance, functionality, reliability, and manageability Is your code easy to change? Can you get nearly instantaneous feedback when you do change it? Do you understand it? If the answer to any of these questions is no, you have legacy code, and it is draining time and money away from your development efforts. In this book, Michael Feathers offers start-to-finish strategies for working more effectively with large, untested legacy code bases. This book

draws on material Michael created for his renowned Object Mentor seminars: techniques Michael has used in mentoring to help hundreds of developers, technical managers, and testers bring their legacy systems under control. The topics covered include Understanding the mechanics of software change: adding features, fixing bugs, improving design, optimizing performance Getting legacy code into a test harness Writing tests that protect you against introducing new problems Techniques that can be used with any language or platform—with examples in Java, C++, C, and C# Accurately identifying where code changes need to be made Coping with legacy systems that aren't object-oriented Handling applications that don't seem to have any structure This book also includes a catalog of twenty-four dependency-breaking techniques that help you work with program elements in isolation and make safer changes.

CMake Best Practices Dec 27 2019 Explore a compendium of tips, tricks, and techniques for

leveraging CMake and empowering your software development workflow. Key Features Understand what CMake is, how it works, and how to interact with it Discover how to properly create and maintain well-structured CMake projects Explore tools and techniques to get the most out of your CMake project

Description CMake is a powerful tool used to perform a wide variety of tasks, so finding a good starting point for learning CMake is difficult. This book cuts to the core and covers the most common tasks that can be accomplished with CMake without taking an academic approach. While the CMake documentation is comprehensive, it is often hard to find good examples of how things fit together, especially since there are lots of dirty hacks and obsolete solutions available on the internet. This book focuses on helping you to tie things together and create clean and maintainable projects with CMake. You'll not only get to grips with the basics but also work through real-world

examples of structuring large and complex maintainable projects and creating builds that run in any programming environment. You'll understand the steps to integrate and automate various tools for improving the overall software quality, such as testing frameworks, fuzzers, and automatic generation of documentation. And since writing code is only half of the work, the book also guides you in creating installers and packaging and distributing your software. All this is tailored to modern development workflows that make heavy use of CI/CD infrastructure. By the end of this CMake book, you'll be able to set up and maintain complex software projects using CMake in the best way possible. What you will learn

Get to grips with architecting a well-structured CMake project
Modularize and reuse CMake code across projects
Integrate various tools for static analysis, linting, formatting, and documentation into a CMake project
Get hands-on with performing cross-platform builds
Discover how

you can easily use different toolchains with CMake
Get started with crafting a well-defined and portable build environment for your project
Who this book is for This book is for software engineers and build system maintainers working with C or C++ on a regular basis and trying to use CMake to better effect for their everyday tasks. Basic C++ and general programming knowledge will help you to better understand the examples covered in the book.

The Search for the Legacy of the USPHS Syphilis Study at Tuskegee Apr 10 2021
The Search for the Legacy of the USPHS Syphilis Study at Tuskegee is a collection of essays from experts in a variety of fields seeking to redefine the legacy of the infamous Tuskegee Syphilis Study. The essayists place the legacy of the study within the evolution of racial and ethnic relations in the United States. Contributors include two leading historians on the study, two former United States Surgeons General, and other prominent scholars from a wide range of

fields.

Department of Defense Appropriations for Fiscal Year 1993: Appendix submitted questions and answers Aug 27 2022

30 Lessons for Living May 24 2022 “Heartfelt and ever-endearing—equal parts information and inspiration. This is a book to keep by your bedside and return to often.”—Amy Dickinson, nationally syndicated advice columnist “Ask Amy” More than one thousand extraordinary Americans share their stories and the wisdom they have gained on living, loving, and finding happiness. After a chance encounter with an extraordinary ninety-year-old woman, renowned gerontologist Karl Pillemer began to wonder what older people know about life that the rest of us don't. His quest led him to interview more than one thousand Americans over the age of sixty-five to seek their counsel on all the big issues- children, marriage, money, career, aging. Their moving stories and uncompromisingly honest answers often surprised him. And he

found that he consistently heard advice that pointed to these thirty lessons for living. Here he weaves their personal recollections of difficulties overcome and lives well lived into a timeless book filled with the hard-won advice these older Americans wish someone had given them when they were young. Like This I Believe, StoryCorps's Listening Is an Act of Love, and Tuesdays with Morrie, 30 Lessons for Living is a book to keep and to give. Offering clear advice toward a more fulfilling life, it is as useful as it is inspiring.

Career to Calling May 12 2021 Do you find yourself at a crossroads in your life? Do you want to make a switch in your career? Are you wondering what next? You are not alone. In this user-friendly book, career coach Annie Stewart guides you through the changes you can implement to move towards passion and purpose. In seven simple yet profound steps, Career to Calling: How to make the switch outlines how you can find and follow your

calling, and overcome the fears that are so often in the way of success. Featuring inspirational stories and practical tools based on years of research and experience, this book removes the mystery surrounding callings to help you find clarity and direction. As the founder of The Callings Program, and director of Sympatico Coaching Practice, Annie Stewart is a much sought-after voice for those wanting to find work they love, earn a good living, and make a difference. Whether you're a university graduate, a return-to-work parent, or a working professional, *Career to Calling* illuminates the path towards fulfilment, and inspires the courage to make a change.

Assessing the Legacy of the ICTY Sep 23 2019 This collection of essays assesses the legacy established by the most important international criminal tribunal since the Nuremberg and Tokyo war crimes trials, and considers what might be done to enhance or modify the legacy of the International Criminal

Tribunal for the former Yugoslavia (ICTY), including improvement of the capacity of state courts in the region to prosecute violations of humanitarian law by using the Tribunal's documents, evidence, law, and practice. *The Extraordinary Chambers in the Courts of Cambodia* Aug 15 2021 This book is the first comprehensive study on the work and functioning of the Extraordinary Chambers in the Courts of Cambodia (ECCC). The ECCC were established in 2006 to bring to trial senior leaders and those most responsible for serious crimes committed under the notorious Khmer Rouge regime. Established by domestic law following an agreement in 2003 between the Kingdom of Cambodia and the UN, the ECCC's hybrid features provide a unique approach of accountability for mass atrocities. The book entails an analysis of the work and jurisprudence of the ECCC, providing a detailed assessment of their legacies and contribution to international criminal law. The collection, containing 20

chapters from leading scholars and practitioners with inside knowledge of the ECCC, discuss the most pressing topics and its implications for international criminal law. These include the establishment of the ECCC, subject matter crimes, joint criminal enterprise and procedural aspects, including questions regarding the trying of frail accused persons and the admission of torture statements into evidence. Simon M. Meisenberg is an Attorney-at-Law in Germany, formerly he was a Legal Advisor to the ECCC and a Senior Legal Officer at the Special Court for Sierra Leone. Ignaz Stegmiller is Coordinator for the International Programs of the Faculty of Law at the Franz von Liszt Institute for International and Comparative Law, Giessen, Germany.

The Immortal Life of Henrietta Lacks Sep 15 2021 #1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and

movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE “MOST INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE’S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important

tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation

on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences. *Fault Lines* Jan 26 2020 Real solutions to a hidden epidemic: family estrangement. Estrangement from a family member is one of the most painful life experiences. It is devastating not only to the individuals directly involved--collateral damage can extend upward, downward, and across generations, More than

65 million Americans suffer such rifts, yet little guidance exists on how to cope with and overcome them. In this book, Karl Pillemer combines the advice of people who have successfully reconciled with powerful insights from social science research. The result is a unique guide to mending fractured families. *Fault Lines* shares for the first time findings from Dr. Pillemer's ten-year groundbreaking Cornell Reconciliation Project, based on the first national survey on estrangement; rich, in-depth interviews with hundreds of people who have experienced it; and insights from leading family researchers and therapists. He assures people who are estranged, and those who care about them, that they are not alone and that fissures can be bridged. Through the wisdom of people who have "been there," *Fault Lines* shows how healing is possible through clear steps that people can use right away in their own families. It addresses such questions as: How do rifts begin? What makes estrangement so painful?

Why is it so often triggered by a single event? Are you ready to reconcile? How can you overcome past hurts to build a new future with a relative? Tackling a subject that is achingly familiar to almost everyone, especially in an era when powerful outside forces such as technology and mobility are lessening family cohesion, Dr. Pillemer combines dramatic stories, science-based guidance, and practical repair tools to help people find the path to reconciliation.

[Working with Legacy Systems](#) Jun 24 2022

Understand the crux of legacy systems—their architecture, analysis, and security constraints
Key Features Understand what legacy systems are and strategies for their maintenance
Explore basic and advanced architectures of legacy systems
Discover how to analyze and secure legacy systems
Book Description The IT industry is constantly evolving with the introduction of new technologies. While it is important to keep up with advancements, maintaining legacy systems is equally necessary to ensure that the

infrastructure of your organization functions to the best of its ability. Sound knowledge of techniques that can be used for maintaining legacy systems can help you avoid common pitfalls. The book begins with a quick overview of what a real legacy system looks like, how it works, and common issues that may be faced when trying to maintaining it. You'll then explore the architecture of a legacy system in detail and understand each of its components. As you progress, you'll discover a variety of techniques for analyzing a legacy system and how to apply them. Once you get to grips with the security constraints associated with legacy systems, you'll explore ways to secure them. Finally, you'll be able to easily make changes in legacy systems to enhance their performance. By the end of this book, you'll have developed the skills and confidence to work with legacy systems and efficiently maintain them. What you will learn

- Perform static and dynamic analyses of legacy systems
- Implement best practices to secure your

legacy systems Use techniques such as data cleansing and process cleansing to stabilize your system Apply structural changes in your legacy system to make it highly available Identify and resolve common issues with legacy systems Understand a variety of tests that can help you secure and maintain legacy systems Who this book is for If you're new to working with legacy systems and want to understand how they work and how to maintain them, this book is for you.

Dream Nov 25 2019 Presents a collection of short readings and illustrations that help readers think about their hopes and dreams.

Conducting Wellness Groups for Veterans and Older Adults Dec 07 2020 Conducting Wellness Groups for Veterans and Older Adults: The Legacy Model offers an innovative wellness group model for mental health practitioners. Two curricula developed by the authors are explored, the Process-Focused Legacy Group curriculum for members who are high functioning and motivated adults, and the

Activity-Based Legacy Group curriculum tailored for persons with disabilities and/or cognitive impairments. Detailed steps, prompts, and legacy activities are provided for each stage for both curriculum formats. This book provides clinical examples from the facilitator's group experiences using the Legacy Model. The appendices provide further detailed resource materials that include descriptions of potential legacy projects and a vast assortment of legacy activities. This book is essential for mental health practitioners: mental health counselors, marriage and family therapists, social workers, and psychologists interested in conducting Legacy Groups with veterans and older adults.

How to Build the Grandma Connection Oct 29 2022 Suggests ways for grandparents to build relationships with their grandchildren and adult children, such as interacting, playing, corresponding, giving gifts, and preserving memories.

Something to Remember Me by Jul 26 2022 For use in schools and libraries only. A girl shares many experiences with her grandmother over the years, and many times the old woman gives her a small gift to help her remember.

The Legacy of Division Apr 22 2022 This volume examines the legacy of the East-West divide since the implosion of the communist regimes in Europe. The ideals of 1989 have largely been frustrated by the crises and turmoil of the past decade. The liberal consensus was first challenged as early as the mid-2000s. In Eastern Europe, grievances were directed against the prevailing narratives of transition and ever

sharper ethnic-racial antipathies surfaced in opposition to a supposedly postnational and multicultural West. In Western Europe, voices regretting the European Union's supposedly careless and premature expansion eastward began to appear on both sides of the left-right and liberal-conservative divides. The possibility of convergence between Europe's two halves has been reconceived as a threat to the European project. In a series of original essays and conversations, thirty-three contributors from the fields of European and global history, politics and culture address questions fundamental to our understanding of Europe today: How have perceptions and misperceptions between the two halves of the continent changed over the last three decades? Can one speak of a new East-West split? If so, what characterizes it and why has it reemerged? The contributions demonstrate a great variety of approaches, perspectives, emphases, and arguments in addressing the daunting dilemma of Europe's

assumed East-West divide.

Further Developments in the Theory and Practice of Cybercartography Mar 29 2020
Further Developments in the Theory and Practice of Cybercartography, Third Edition, Volume Nine, presents a substantively updated edition of a classic text on cybercartography, presenting new and returning readers alike with the latest advances in the field. The book examines the major elements of cybercartography and embraces an interactive, dynamic, multisensory format with the use of multimedia and multimodal interfaces. Material covering the major elements, key ideas and definitions of cybercartography is newly supplemented by several chapters on two emerging areas of study, including international dimensions and language mapping. This new edition delves deep into Mexico, Brazil, Denmark, Iran and Kyrgyzstan, demonstrating how insights emerge when cybercartography is applied in different cultural contexts.

Meanwhile, other chapters contain case studies by a talented group of linguists who are breaking new ground by applying cybercartography to language mapping, a breakthrough that will provide new ways of understanding the distribution and movement of language and culture. Highlights the relationship between cybercartography and critical geography Incorporates the latest developments in the field of cybercartography, including International Dimensions and Language Mapping Showcases the legal, ethical and policy implications of mapping local and traditional knowledge

The SAGE Encyclopedia of Out-of-School Learning Feb 18 2022 The SAGE Encyclopedia of Out-of-School Learning documents what the best research has revealed about out-of-school learning: what facilitates or hampers it; where it takes place most effectively; how we can encourage it to develop talents and strengthen communities; and why it matters. Key features

include: Approximately 260 articles organized A-to-Z in 2 volumes available in a choice of electronic or print formats. Signed articles, specially commissioned for this work and authored by key figures in the field, conclude with Cross References and Further Readings to guide students to the next step in a research journey. Reader's Guide groups related articles within broad, thematic areas to make it easy for readers to spot additional relevant articles at a glance. Detailed Index, the Reader's Guide, and Cross References combine for search-and-browse in the electronic version. Resource Guide points to classic books, journals, and web sites, including those of key associations.

Long-range Public Investment Oct 24 2019 Long-Range Public Investment: The Forgotten Legacy of the New Deal is augmented by fifty-eight photographs.

What If? Building Students' Problem-Solving Skills Through Complex Challenges Jul 14 2021 If a fundamental goal of schooling is

to prepare young people for the unknowable future, why do we assign students so many clearly defined tasks with predetermined solutions? According to educator and creativity expert Ronald A. Beghetto, the best way to unleash students' problem solving and creativity—and thus prepare them to face real-world problems—is to incorporate complex challenges that teach students to respond productively to uncertainty. In this thought-provoking book, Beghetto explains * How to foster "possibility thinking" to help students open up their thinking in creative, sometimes counterintuitive ways. * The process of lesson unplanning, a way of transforming existing lessons, activities, and assignments into more complex classroom challenges. * Four basic action principles that teachers and students can use to design and solve complex challenges both inside and outside the classroom. * The steps for creating legacy challenges, which require students to identify a problem, develop a

solution, and ensure that their work makes a lasting contribution. With planning forms and detailed sample activities, this practical guide will enable teachers at every grade level to design a full range of challenges in any subject area. Invite uncertainty into your classroom—and discover what your students are capable of.

The Search for the Legacy of the USPHS Syphilis Study at Tuskegee Jul 02 2020 The Search for the Legacy of the USPHS Syphilis Study at Tuskegee is a collection of essays that seeks to redefine the "legacy" of the infamous Tuskegee Syphilis Study in light of recent findings from other scientific studies that challenge the long-standing, widely-held understanding of the study. These essays are written with thoughtful attention to fully integrate the essayists' perspectives on the impact of the study on the lives of Americans today and place the legacy of the study within the evolving picture of racial and ethnic

relations in the United States. Each essayist looks through his or her own personal and professional prism to give an account of what constitutes that legacy today. Contributors include the two leading historians of the Tuskegee Syphilis Study and two former Surgeons General of the United States as well as other prominent scholars from the fields of public health, bioethics, psychology, biostatistics, medicine, dentistry, journalism, medical sociology, medical anthropology, and health disparities research.

A Little Something Dec 31 2022 A girl shares many experiences with her grandmother over the years, and many times the old woman gives her a small gift to help her remember their time together.

Dignity Therapy Nov 29 2022 Maintaining dignity for patients approaching death is a core principle of palliative care. Dignity therapy, a psychological intervention developed by Dr. Harvey Max Chochinov and his internationally

lauded research group, has been designed specifically to address many of the psychological, existential, and spiritual challenges that patients and their families face as they grapple with the reality of life drawing to a close. In the first book to lay out the blueprint for this unique and meaningful intervention, Chochinov addresses one of the most important dimensions of being human. Being alive means being vulnerable and mortal; he argues that dignity therapy offers a way to preserve meaning and hope for patients approaching death. With history and foundations of dignity in care, and step by step guidance for readers interested in implementing the program, this volume illuminates how dignity therapy can change end-of-life experience for those about to die - and for those who will grieve their passing.

Story by Story Feb 27 2020 Family stories help us understand who we are, where we've come from, and where we're going. Strengthening family bonds across generations, they remind us

that we will be remembered. Anyone can capture their family stories, and Brenda Hudson makes it easy and fun with *Story by Story: 15 Projects to Write Your Family Legacy*. All you need to start is a few minutes and one story. From a small list of your favorite things to stories of life's pivotal moments, Hudson walks you through different ways to build a living legacy that will evolve and grow as you work. The best part is, there's no right or wrong way to write your family legacy. You decide! And it doesn't have to stop with you—your whole family can participate. The more you collaborate, the better you'll connect your family's past, present, and future legacy. Projects in *Story by Story* will help you document:

- Family sayings
- Self-portraits
- Character sketches
- Visual diaries
- Mementos and heirlooms
- Lessons you've learned
- And much more!

Brenda Hudson is an award-winning teacher and writer. Her passion is helping others express themselves through writing. She lives with her family in St. Paul, Minnesota. For
