**Teaching and Learning Portuguese in Canada** Dec 19 2021 The teaching of Portuguese across the vast Canadian territory, characterized by one particular variety at times or through a dynamic convergence of both Portuguese and Brazilian varieties at others, has attracted primarily learners for whom Portuguese may be considered a heritage language. However, the number of learners from non-Lusophone backgrounds in the Portuguese language classroom continues to grow-a trend fueled by motivations as diverse as the learners' profiles. Both teachers and learners contribute to the multi-dimensional diversity that the teaching and learning experience represents. Teachers and learners, from distinct ethno- and sociolinguistic backgrounds, come together in the classroom to cultivate and celebrate their personally unique-yet interconnected-relationship with the Portuguese language. However, considering that Portuguese in Canada is always taught and learned in a minority language context, teachers and learners' plurilingual and intercultural

competencies are more-often-than-not left unacknowledged and unexplored, despite the Portuguese language classroom's rich multilingual and multicultural nature. In light of these and other factors, this volume has been conceptualised with the objective of bringing scholars and teachers together to promote the sharing of knowledge and to foster a critical reflection relevant to the teaching and learning of Portuguese in Canada, simultaneously informing a holistic mapping of its current expansiveness.

Step Forward Canada Oct 24 2019 Step Forward Canada 1 uses real-life situations and everyday events to teach mature or adult ESL learners the building blocks of the English language. It is a four-skill book whose comprehensive, easy-to-navigate Table of Contents gives instructors a clear picture of the lessons and identifies where important language requirements will be taught throughout the text. The Table of Contents lays out the book's 12 units and identifies how the Canadian Language Benchmarks (CLBs) coincide with and enhance the material being taught in the classroom. The CLBs are the cornerstone for identifying the language levels of adult English learners in Canada. More specifically, they allow instructors a simple, streamlined means of evaluating the English proficiency of their students based on regulated benchmarks (that act as reference points). The CLB levels covered in Step Forward Canada Book 1 range from one to four (the most basic language levels); in total, however, there are twelve CLB levels, with higher levels being taught in more advanced texts. The body of the text includes 12 units. Each unit has five lessons and a review section. The five lessons are: vocabulary, life stories, grammar, everyday conversation, and real-life reading. Each of the five lessons covers various CLBs using everyday situations, and each lesson is identified with CLB level for instructors' convenience.

Best School in the World Apr 30 2020 There's a little-known school in Halifax that kids are excited to attend every day, right through until they

graduate. It's a place where they absorb "real-world" skills, including critical thinking, and complex literacy, math and second-language abilities, so that they stick. They gather for intense, whole-school discussions on local issues, create art using geometric calculations, and dig into the school garden while learning about the biology of the native plant garden – all in one typical week. Over forty years, the Halifax Independent School has developed an approach to education that reflects the ideas of leading educators but follows no set formula. It offers parents and educators a vision of what schools could be like right across the country. In this account of "the best school in the world," readers will find ideas big and small for how Canadian schools could do a better job of engaging, challenging and educating their students.

Academic Well-Being of Racialized Students Sep 23 2019 Canadian universities have a sordid history steeped in colonialism and racism. Racialized students, who would have once been forbidden from academic spaces and who still feel out of place, must navigate these oppressive structures in their educational journeys. Through the multiple genres of essay, art, poetry, and photography, this book intelligently examines the experiences of racialized students in Canadian academe. Though the contributors discuss the challenges they face, the book emphasizes the crucial connections that racialized students purposefully forge, which transform an otherwise hostile environment into a space of good relations, intellectual collaborations, community-building, and kinship: academic well-being. Lovingly curated by Dr. Benita Bunjun, this book's existence is a living example of mentorship, reciprocity, and resilience.

Sociology of Education in Canada Sep 15 2021 Sociology of Education in Canada utilizes a contemporary theoretical focus to analyze how education in Canada is affected by pre-existing and persistent inequalities among members of society. It presents the historical and cultural factors that have shaped our current education system, examines the larger social trends that have contributed to present problems, discusses the various interest groups involved, and

analyzes the larger social discourses that influence any discussion of these issues. To achieve this, Karen Robson uses many current, topical, and relatable issues in Canadian education to ensure that readers fully comprehend the information being presented and leave with an appreciation of how the sociology of education is inextricably linked to issues of stratification.

Immigrant and Refugee Students in Canada Jun 24 2022 Recent immigrants and refugees – both children and their families – often struggle to adapt to Canadian education systems. For their part, educators also face challenges when developing effective strategies to help these students make smooth transitions to their new country. In Immigrant and Refugee Students in Canada, researchers join educators and social workers to provide a thorough and wide-ranging analysis of the issues at the preschool, elementary, secondary and post-secondary levels. By understanding these issues within the unique Canadian context, educators can work more effectively with

newcomers trying to find their way. This book pursues three lines of inquiry: What are the main challenges that immigrant and refugee children and families face in the Canadian education system? What are the common aspects of successful intervention? What can we learn from the narratives of researchers, educators, social workers, and other frontline workers who work with immigrant and refugee families?

Patterns of Participation in Canadian Literacy and Upgrading Programs Aug 03 2020 In early 1999, ABC Canada and Literacy British Columbia (BC) worked with 55 literacy organizations across Canada to study student recruitment and retention. Telephone interviews were conducted with 338 people who had contacted programs seeking literacy information or services (callers). Findings indicated callers constituted a broad cross-section of people, from all age groups, from large and small communities, with a very wide range of formal education and employment status; callers heard about programs and how to contact them through media advertising and posters, telephone book, community groups, agencies, schools, and word-of-mouth; callers were seeking help with reading and writing, getting a high school diploma or credits, math alone or as a component with reading and writing, employability skills, or English as a second language; more callers were interested in improving literacy skills for personal, social, and general educational reasons than for job or retraining purposes; less than half of callers enrolled in a program; program/policy-related factors were the main reasons driving non-enrollment for the most callers; socioeconomic-circumstantial factors were the main reason reported by more than half of dropouts; and of those who had completed or were still in a program, 88 percent reported high levels of satisfaction with program level, content, and teaching structure. National Follow-Up Survey is appended. (Contains 48 figures, 42 references, and an index.) (YLB)
